Car plunges into Swollen drain, 8 killed in MP

AGAR MALWA: Eight people, among them three children and two women, were killed after their car fell into a swollen drain in Madhya Pradesh's Agar Malwa in the early hours of Saturday, police said.

The accident occurred near the Bagmati temple in Nalkunda town, around 30 km from the district headquarters. Nalkunda police station in-charge Shashi Upadhyay said. He said that the car with devotees from Orkha fell into the drain, which was overflowing with rainwater, and the occupants, including three children, two women and three men, were killed.

The Nalkunda police launched a rescue operation, retrieved the bodies and sent them for post-mortem, the official said.

\$1 lakh fee on employers on H-1B extended by a year

WASHINGTON: US President Donald Trump has extended a \$100,000 fee by a year on employers for bringing in foreign workers on H-1B visas, the White House said.

In a presidential proclamation issued on Friday, Trump said the 2025 decision to impose a \$100,000 fee had led to a 10 per cent decrease in H-1B registrations by large IT outsourcing firms.

"An extension of the 2025 Proclamation will continue to protect the economic and national security interest of the US, improve labour market access for American workers and graduates, and ensure that employers recruit only the most highly skilled and essential alien workers when needed in line with the original intent of the program," Trump said.

Indians remain the single largest H-1B visa group in the US, the official said.

The 2025 decision to levy the \$100,000 fee has run into a legal challenge and the matter is before two different federal courts. The 2025 order for a fee hike was set to expire this month. It did not apply to visas granted to foreign citizens already in the United States on student visas, who make up a large share of new H-1B recipients, or to renewals of current visas.

The order also sets a 30-day deadline for the Secretary of Labour, and the Secretary of Homeland Security to consider petitioner employers' request or planned layoffs of similarly situated US workers when considering H-1B applications. "Instead, the program has been widely abused by certain employers, third-party placement agencies, and outsourcing firms. The President also issued a separate proclamation, tightening the scrutiny of H-1B applications."

66 The program was widely abused by certain employers, third-party placement agencies, outsourcing firms to undercut and displace the supply of skilled US labour—Donald Trump

H-1B visa applications through better inter-agency cooperation. "The Order enhances program integrity in the H-1B visa program by improving interagency coordination and diverting enhanced scrutiny of H-1B visa applications where there is a heightened risk that American workers would be laid off," the White House said.

The Order directs the Secretary of State, the Secretary of Labour, and the Secretary of Homeland Security to consider petitioner employers' request or planned layoffs of similarly situated US workers when considering H-1B applications. "Instead, the program has been widely abused by certain employers, third-party placement agencies, and outsourcing firms. The President also issued a separate proclamation, tightening the scrutiny of H-1B applications."

The statement from PDIOS concluded that it had been widely misused by certain employers, including IT outsourcing firms. "PDIOS applications and underpins the Administration's intent to protect America's national and economic interests, safeguard American workers, and address abuse of the H-1B system. Those

Massive sti caught copy

BOMBAY: A 22-year-old student of the Indian Institute of Technology (IIT) Bombay committed suicide in his hostel room after he was allegedly caught using his mobile phone during an examination, police said on Saturday.

Sahil Ravindra Wakode, a native of Maharashtra's Thane district, was found hanging from the ceiling fan in his room in Hostel Number 4 on Friday evening, an official said.

Wakode was a second-year B.Tech student in the Energy Science and Engineering department, he said. According to a statement from IIT Bombay, the student had allegedly uploaded the examination question paper to ChatGPT to seek answers during the exam.

The death is the third reported case of suicide at the IIT Bombay campus in seven months.

Technopark engg lab 'first IT park' to get NABL rating

THIRUVANANTHAPURAM: The engineering laboratory of IIT Thiruvananthapuram has received accreditation from the NABL, making it the first IT park in the country to get the recognition.

The accreditation has been granted for meeting the competence requirements for the competence of testing and calibration laboratories, according to a statement.

Congratulating officials and support staff at the NABL accreditation, Technopark CEO Suresh Kumar JAS said it made Technopark the only IT park in the country with a NABL-accredited

of engineering laboratory—ensuring quality and sustainable infrastructure development. Technopark's special civil and electrical engineering laboratories on the Phase I campus last year. "The facility is a landmark in ensuring the standards and quality assurance of construction and electrical works, including LT and HT materials. The lab has positioned Technopark to ensure the quality of its infrastructure work as well as provide necessary technical guidance to its co-developers." The CEO said. Mahaveen Prasad, Chief Technical Officer, Technopark, described the accreditation as a significant achievement for Engineering Department. "The task was challenging and required sustained effort, dedication and close coordination as a team."

Through our collective commitment, we were able to accomplish it," he said. The NABL-accredited lab will further strengthen quality control in Technopark's infrastructure works by supporting informed engineering decisions, material performance verification, compliance monitoring and the reliability of built infrastructure, the statement said.

The laboratory is designed to serve as a hub for testing various parameters and assessing the quality of construction and electrical materials used in Technopark's works. The National Accreditation Board for Testing and Calibration Laboratories is an autonomous constituent board of the Quality Council of India that provides third-party assessment of the technical competence of testing, calibration and medical laboratories.

Wife claims man bit n in-laws say she bit his priv

HANDU: A woman in Uttar Pradesh's Haridwar district has accused her husband of biting off her nose during an argument, police said on Saturday.

Sadhana (77) alleged that her husband, Bipak, attacked her on the head, bit off her nose, and threw it into a drain. She also claimed her mother-in-law and father-in-law held her hands down during the attack in the kitchen.

Sadhana allegedly left her husband two and a half months ago to be with a lover. She returned unexpectedly on Thursday by jumping from a neighbour's roof into her husband's house, which ignited a fight, police said.

SDO of Sadoli police station Pabarg stated after her unexpected return, a confrontation occurred between the couple, during which Deepak assaulted her and bit off her nose. Upon receiving information, police rushed and took both parties to the station. Deepak was subsequently detained.

According to the police, Sadhana was initially taken to the Community Health Centre (CHC) in the area and later referred to Haridwar Medical College for further treatment. However, Deepak's family has made some derogatory allegations. Sadhana, Deepak's mother claims

PAN-ASIAN SPREADS A NEW WIDE INFLUENCE

chinese to come as a family as well," he says.

The new space expands the menu beyond Chinese offerings, bringing in Burmese, Thai, Japanese and Malaysian influences. Paul says the expansion came from observing Chennai's growing interest in international food. "Everyone's into it now, and we want to bring that to our brand without the better price tag of eating at a five-star hotel. Keeping it fresh and authentic is our primary goal."

The menu also has plenty for non-vegetarian diners, with options such as chicken dim sum, chilli chicken, Thai chicken, Thai chicken curry, chicken ramen and Malaysian-style chicken noodles, alongside seafood preparations.

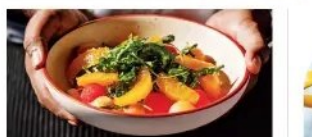

Chef Rukman, who helms the kitchen, begins to explain as the dishes arrive at the table. We opt for the vegetarian spread during our meal. The meat began with the lemon coriander soup, made with fresh coriander, lemon juice, vegetables and mild seasoning. It has a bright, citrusy freshness with the coriander adding a pleasant herbal aroma.

The sweet chilli lettuce stem, however, is the standout. Freshly braised in a light sauce and served with a golden and crunchy beetroot, it's a sweet, mildly spicy and finished with a hint of sesame and fresh garnishes. The crisp lettuce stem, sweet beet and golden beetroot make it particularly memorable.

The shoyu vegetable ramen arrives as a big bowl of comfort, with hot noodles in a rich, savory and slightly salty broth, enhanced by assorted vegetables. The chicken

Asian cuisine rarely fits neatly into one box, and a meal at The Chinese Story's new Pan-Asian is proof of that. The menu merges Chinese, Burmese, Thai, Japanese and Malaysian flavours on its menu.

During that meal, we're learning a lot about the new space. The menu is designed to be a mix of comfort and excitement, with a focus on fresh ingredients and a variety of textures. The chef explains that the menu is designed to be a mix of comfort and excitement, with a focus on fresh ingredients and a variety of textures.

BREW'D BRINGS PLAY, FOOD AND PAUSE TO ECR

A pickled plaything plying on the wall greets visitors as they drift into Brew'd, the new beach-front cafe adjoining the sporting space Sora in Palurakkam. Founded by childhood friends Arun Bhargava and Murali Raghavan, the space brings together sport, food and the social, with the founders positioning Sora as a place to play and Brew'd as a place to pause.

"Brew'd is a space to pause and Sora is a space to play. Together, it's the perfect blend of the two," the founders said. The cafe's proximity to the sports ground is an important role in that idea, with the ocean, sea breeze and sound of the waves shaping its atmosphere.

The menu follows the same global mood-board approach, drawing from Europe, Korea and the Mediterranean while adding a Chennai touch. Chennai-style chutneys, and a variety of regional specialties, including masala dosa, idli, and dosa, are served. The menu also includes a variety of regional specialties, including masala dosa, idli, and dosa.

"Today's coffee culture is well-versed in global cuisine and trends from the internet. So we wanted to create a contemporary menu that also reflects Chennai, especially the fact that we are by the beach and next to a sports venue," the founders said.

The founders' backgrounds also feed into the larger concept, with Arun bringing his hospitality experience from Mithambara, while Murali brings his association with sports and the outdoors. They shared their vision to create a space that works as a break from the pace of life.

"We grew up by the sea all our lives. We spend most of our time on or by the beach. So when we decided to come up with this, we knew that it had to be here," they concluded.

also butter, brings together elements such as a rich, salty butter sauce, with the miso lending umami and the butter a smooth finish. This comes the Khao Siew a Burmese favourite with a creamy, milky spice and aromatic coconut base. What makes the best special enjoyable is the

flat rice tossed over high heat with vegetables, aromatic spices and Asian seasonings. Finally, Burmese are ever-thirsty, this one stands out. The Thai Green is a Thai desert made with water chestnuts coated in tapioca starch and cooked until soft and translucent, served in sweet coconut milk. Even after a filling meal, the comforting coconut flavor makes room for a few more bites.

For Paul, the expanded menu is also part of a larger journey. "We have great plans on the horizon for this brand and will start taking this global, with talks on the way to restaurants in the U.S. and U.K.," he says.

The Thai green curry with dumplings has a hint of sweetness while retaining its heat and texture. An other star of the menu is the veggie Thai noodles, packed with vegetables and carrying a well-balanced sauce of mild and seasoning. The chicken Malaysian noodles, a simple yet

IT'S COOKIE TIME

ALMOND COOKIES

RECIPE

Grind the almonds to a fine powder and set aside.

In a mixing bowl, add the wheat flour, almond powder, powdered sugar and cardamom powder. Add salt and mix well.

Add the butter and mix until the mixture resembles crumbs.

Add the milk and mix gently with your fingertips. Do not knead. Bring the mixture together to form a dough.

Take a tablespoon of dough at a time to make evenly sized cookies. Roll between your palms and flatten slightly.

Preheat the oven to 180°C for 10 minutes.

Place the cookies on the lined almonds.

Bake at 180°C for 12-15 minutes, or until the tops turn golden.

Allow to cool and serve.

PEANUT BUTTER COOKIES

Add the flour and baking powder to a bowl. Whisk well and set aside.

In a mixing bowl, add the butter, caster sugar, brown sugar and peanut butter. Whisk until creamy.

Add the vanilla extract and mix briefly.

Add the flour mixture and mix with a spatula until no dry flour remains. The mixture will look crumbly.

Add the warm milk and mix by bringing the mixture together into a dough. If needed, add another 1/4 cup of milk.

Roll each portion between your palms and flatten slightly.

Place the cookies on a parchment-lined baking tray and press them with a fork to create a check pattern.

Preheat the oven to 180°C for 10 minutes. If you do not want the cookies to spread, chill the tray for 15 minutes before baking.

Bake at 180°C for 12-15 minutes, or until the edges start to turn golden.

Remove from the oven, cool and serve. Serve at room temperature.

While you are the nurturer, the provider and the glue that holds the family together, it is also a time to relax and long-term friendships and how you can reduce one's life stress. Date and time: Till September 30, 7 pm onwards

Venue: Sunset Grill, 10000 Sunset Blvd., Suite 100, Los Angeles, CA 90067

Venue: Spice Host, Hyatt Regency Chennai

he audio launch of *Baahubali* turned into a lively evening as students gathered at a private college to cheer for the film's director, S. S. Rajamouli, and director-producer N. T. Rama Rao. Rajamouli, who is collaborating for the third time, spoke out their latest film, following their earlier collaborations, including the 2015 film *Koragana*. Rajamouli, who is collaborating for the third time, spoke out their latest film, following their earlier collaborations, including the 2015 film *Koragana*.

Prasanna Rajesh Tharunadharam for recreating the 1960s with a vengeance. After sold the director's earlier cinematographs when it comes to cinema. After he recalled how the project came to him through Vijay Sethupathi. "During Jagan, he told me about a project and I immediately said, 'Don't give it to anyone; I want to produce it.' That's how 'Bharata' came to me," he said.

He also praised Vijay Sethupathi for trusting him with the project and lauded Sai Abhiram's work, urging audiences to experience the songs and back-ground score on the big screen.

Chal Dehkhani

ner both of them liked the story. One of the director's biggest surprises was Sai Abhyankar's role as Rajaji. Sai said Abhee had recommended the composer for the project and proved his ability to write an ariatic for a film set in the 1930s, despite being born after October 2000. "Sai Abhyankar definitely deserves a National Award for this film. If he doesn't get one, I'll be angry," he said.

Sai Abhyankar, in turn, said Abheeth was the second film he signed and credited Abhee for being the starting point for the project. He expressed happiness at working with Rajaji Tharuvathilal, whose films, he admires, and said the director's faith in him despite his limited experience gave him confidence.

cluded young performer Subhas and the other artists, while joking that Sri Abhyankar had stolen the show.

"I felt like I was only the second-best in this film," he said, referring to the young boy's performance. He described Sal as a grown-up child with incredible energy and innocence, adding that he hoped the composer would not ever lose that spirit.

By choosing his projects and expressing confidence that *Bhishm* would offer audiences a fresh cinematic experience.

Litomi Jose, who became emotional while speaking at the event, said she was particularly special to her. She expressed gratitude for the opportunity to work with Balaji Tharadharan, Vijay Sethupathi, Atlee and Sri Abhyankar, and thanked them for their kindness, appreciation and encouragement throughout the journey.

Meesaya Murukku 2 is a global story about musicians: Hip-hop Tamizha Adhi

composer Hrishna Tampi. Adhi says his upcoming album, *Meru*, is dedicated to release worldwide on September 25, is a broader story about resistance, their struggles and triumphs.

Speaking at a pre-release event, who has directed the film, who plays the lead, explained how the film is a tribute to the late "Mookya Marudhi was a topic based on my own life. I am sure *Meru* 2 is a much more interesting story than the first. It is a global story about music, musicians and the lives they lead. It explores the dreams, struggles, hardships and emotions of people who live music as their way of life," he said.

The film also focuses on Gana artists who have come from their personal experiences and struggles.

"The film becomes an important record of Gana artists who have come from their personal experiences and struggles and make a living through songs and their stories and the world around them. It is a part of the history of this film," Adhi said. The

sequel also features a new father character. In the first film, late actor Vivek played Adhvi's father. Speaking about his absence, Adhvi said, "No one can ever fill the place of the late Vivek sir, who played my father in the first part. However, Abhinav Manojkumar 2 moves through three different time periods, and there is a very important father character in this story as well. I felt that Babu Bhaskar Master was the right person for this role."

Adhvi said Babu Bhaskar was initially hesitant about taking up the role but eventually agreed af-

tee trusting his vision for the character. "He was slightly hostile initially, but he trusted me and went ahead with the role. He has performed extremely well. I genuinely believe that after this film, he will earn a significant place in Tamil cinema as an actor," he said.

The film also introduces *Kattai Shirma* as Laila Singh, a dancer who travels to Chennai from Punjab. The story brings together music, dance, ambition and love, while exploring the lives of people who choose not act as their profession.

Ninam will showcase a handwoven tapestry titled *Waves of the Indian Ocean* at the two-day event, which runs from October 26 to 27, on September 25 and 26. The 100 works are inspired by the patterns and colours of South Indian coastal waves and fish, and feature designs featuring prominent fish motifs.

Turkija began exploring marine life while working on 'Art of Weaving' at the National Institute of Design, which she had painted tapestries. She decided to do one with waves, explaining a new medium, as she had never woven before. A teacher introduced her to a handloom weaving studio, Shubhanti Sood, she says.

Turkija returned with stripes of blue and green, and a series of looms before trying a clasp, which helped her to create a wave-like triangular pattern, later moved on to checks. For the first time, she says, she felt earthy, warm and cool, as seen in South Indian saris.

Turkija has been learning to weave for the last 10 years, and for more than 10 years. "She is not a conventional crafter, she acquired a spirit of a designer and a crafter, and she also encourages me to draw"

ation from the young life and later on," adds the therapist. She credits the team at Shanks & Shanks with teaching her to work and craft with thread.

For Tarika, weaving is not another art form. "Weaving involves the mind, hands and emotions, creativity and patience," she says. She hopes the inhibition will not stop people of Indian-American background from practicing their craft.

"We live in a world of trappings of attention spans. Weaving allows us to take time to calm the mind and both the mind and soul makes you feel grounded, enhances attention," concludes the artist.
